

# CountdownTimer Widget - Release Notes

Release date: May 3, 2026 Widget: `Countdown Timer`

## Summary

The CountdownTimer widget displays a front-end countdown using either a specific end date/time or rolling date presets for common campaign deadlines.

Main outcome: editors can add deadline messaging to CMS pages without custom JavaScript.

## Features

- Configurable headline.
- Specific date/time countdown mode.
- Rolling presets for tomorrow, end of month, end of quarter, and end of year.
- Validation for accepted date formats.
- JS Code tab support for script position.
- Minification property support.
- Inline widget documentation.

## Documentation Pack

- `CountdownTimer\_Widget\_Feature\_Technical\_Documentation.html`
- `CountdownTimer\_Widget\_Feature\_Release\_Notes.html`
- `CountdownTimer\_Widget\_Marketing\_Blog\_Post.html`
